Price:

59.00 US\$

It is generally described as "meditation in motion." It is practiced far more as a type of preventive wellness care than as a response to an ailment. With this therapy, a practitioner assists you make good mental pictures and desired outcomes for specific situations. For example, whilst in a state of relaxation, you may concentrate on feeling stronger or better, or you may well picture the destruction of tumor cells. In a further technique, you could visualize a variety of elements of remedy, from the least frightening to the most painful, remaining calm and relaxed at every single step. Yoga is a type of gentle physical exercise consisting of body postures and breathing tactics.
