Address:

All Providence

Price:

Free

The very first Multi language TAE for promotions in Dutch and English language

The name TAE that is an abbreviation for Text Ad Exchanges is deceptive though. TAEs offer much more than just text ads. There is also banner advertising, hot links, a mailer with solos and a manual surf. You can get log in ads and network advertising.

With the exception of network advertising all free. All you need to do is earn points by viewing other members ads.

If you have little time to do so, credit packages can be bought at low cost
