Address:

2012 Farnham Ct, Cook, Chicago

Price:

Free

The top CPS marketers of the world are not, contrary to popular belief, Internet gurus sitting behind computer screens. They are also not calculating gamblers that buy traffic and pipe it to carefully researched offers.

 No, this nickel and dime profile does not fit the image of CPS success. It looks quite different.

 Top Dog CPS Kings dance to an entirely different beat. We are talking highly successful CEO's and Politicians. And they clearly make more money on a single conversion than most standard CPS contenders make in a year. And they do it without any paid traffic.

 If you are capable of unlearning the rubbish directives commonly associated with mass-marketed CPS courses, you would find yourself peering into an entirely different world.

 'Private CPS' is my course on doing it right. Right is attained when you actually get a predictable result for your efforts and in the absence of any wagering. What you will learn in this course I could only hope to articulate. But what you will be doing is crystal clear. No Micky Mouse payouts. Payouts on a single conversion range between \$110 to 22K.

 This course is available for 15 students only. It is available by interview only, as there are no training videos or PDF's. All learning is done directly with me, and the result will be 10K per month in 6 months or less.

 Friend and/or PM me to discuss your situation (COST) and to get more info.
